

Oxfordshire Minor Eye Conditions Service

If you have a problem with your eyes such as those listed inside this leaflet, then this service can assess and treat you.

The service is funded by the NHS and is available from local opticians throughout Oxfordshire.

Appointments are normally available within 48 hours.

If you are unsure whether your symptoms can be assessed and treated by the service, please contact one of the optometry practices listed in this leaflet and they will advise you.

Free NHS assessment for minor eye conditions at a local optician

What is the Oxfordshire Minor Eye Conditions Service (MECS)?

Minor eye conditions that can be treated by the service include:

- Red eye or eyelids
- Dry eye gritty and uncomfortable eyes
- Irritation and inflammation of the eye
- Significant recent sticky discharge from the eye or watery eye
- Recently occurring flashes and floaters
- Painful eye
- Ingrowing eyelashes
- Recent and sudden loss of vision
- Foreign body in the eye

Please note this is not an eyesight test. Some eye conditions are better suited to immediate referral to eye casualty – please ask your optometrist, pharmacist or GP if unsure

NOTE: This Minor Eye Conditions service is not for major eye conditions such as cataracts, diabetic retinopathy or glaucoma.

For more information on the Oxfordshire Minor Eye Conditions Service see:

www.oxfordshireloc.org.uk

Where should I go?

Registered optometry practices (Opticians) offering the service are listed on the reverse of this leaflet. An appointment will normally be required, so phone first.

Appointments are available during normal working hours. Not all practices have an optometrist available every day, but if they don't, they will be able to find you an appointment elsewhere.

Appointments are available during normal working hours. Some optometry practices offer appointments at the weekend.

How do I book an appointment with the service?

If you are registered with an Oxfordshire GP and over 6 years of age you can use the service. To make an appointment call one of the optometrists on the back of this leaflet. The most up to date list of participating optometric practices will be on the public page of our website:

www.oxfordshireloc.org.uk

You will be asked some questions about your symptoms in order to assess how quickly you need to be seen by the service, which will be within 48 hours or sooner if possible.

Please take your glasses and a list of your current medication with you to the appointment. The optometrist may put drops in your eyes to enlarge your pupils in order to get a better view inside your eyes. You should not drive until the effects of these drops have worn off, which may take a few hours.

If your condition is more serious, the optometrist will book you an urgent appointment at a hospital eye clinic. If you need a routine appointment with a hospital, the optometrist will refer you for this.

You may also be advised to make an appointment with your GP if your eye condition is related to your general health.
